

The Progesterone Only Pill

The pill is a contraceptive for women.

The pill can prevent pregnancy.

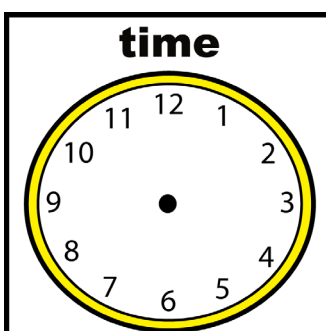

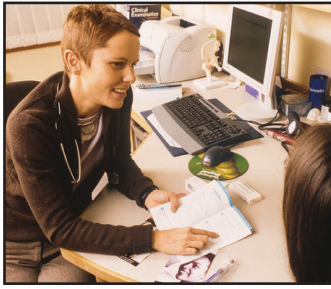

The pill is prescribed by your GP or a doctor at the sexual health clinic.

You take one pill every day.

Try and take it at the same time every day.

See your GP or doctor to get more pills.

You should still use condoms when having sex.

Condoms can prevent sexually transmitted infections.

Remember that it is your choice if you want to have sex or not.

You should never have sex if you don't want to.
